I have been given the following information:

Flu Brochure

I have been given the Flu Brochure and I am aware that it is suggested that a flu vaccine for your child should be given **annually** at the beginning of FLU season in September.

Getting In Getting Out

Check the Back Seat

- In just 10 minutes a car Temperature can increase by 19 degrees.
- Before getting out of your car, Check the back seat **Don't Forget your Child.**
- Never leave your child alone in the car and call 911 if you see any child locked in a car.
- Place something in the back seat that you will need at work, school, or home.

The Rilya Wilson Act, F.S. 39.604

The purpose of this law is to ensure childcare providers are held accountable for keeping track of and monitoring the health, safety and welfare of children who are under court ordered protective supervisor. A Child who is under the protection of the Department of Children and Families (BG-1) may not be withdrawn from the provider without the prior written approval of the responsible agency. If a child under protective supervision is absent from the program on a day when he or she is supposed to be present, the person with whom the child resides, whether the parent or caregiver, fail to timely report the absence, the absence is considered to be unexcused. The provider is required to report any unexcused absence or seven consecutive excused absences of a child who is enrolled in the program and covered by this act to the caseworker assigned to the family by the end of the business day following the unexcused absence or seventh consecutive excused absence.

What is the influenza (flu) virus?

Influenza ("the flu") is caused by a virus which infects the nose, throat, and lungs. According to the US Centers for Disease Control and Prevention (CDC), the flu is more dangerous than the common cold for children. Unlike the common cold, the flu can cause severe illness and life threatening complications in many people. Children under 5 who have the flu commonly need medical care. Severe flu complications are most common in children younger than 2 years old. Flu season can begin as early as October and last as late as May.

How can I tell if my child has a cold, or the flu?

Most people with the flu feel tired and have fever, headache, dry cough, sore throat, runny or stuffy nose, and sore muscles. Some people, especially children, may also have stomach problems and diarrhea. Because the flu and colds have similar symptoms, it can be difficult to tell the difference between them based on symptoms alone. In general, the flu is worse than the common cold, and symptoms such as fever, body aches, extreme tiredness, and dry cough are more common and intense. People with colds are more likely to have a runny or stuffy nose. Colds generally do not result in serious health problems, such as pneumonia, bacterial infections, or hospitalizations.

For additional information, please visit www.myflfamilies.com/childcare or contact your local licensing office.

This brochure was created by the Department of Children and Families in consultation with the Department of Health.

THE FLU

A Guide for Parents

What should I do if my child gets sick?

Consult your doctor and make sure your child gets plenty of rest and drinks a lot of fluids. Never give aspirin or medicine that has aspirin in it to children or teenagers who may have the flu.

Call or take your child to a doctor right away if your child:

- Has a high fever or fever that lasts a long time
- Has trouble breathing or breathes fast
- Has skin that looks blue
- Is not drinking enough
- Seems confused, will not wake up, does not want to be held, or has seizures (uncontrolled shaking)
- Gets better but then worse again
- Has other conditions (like heart or lung disease, diabetes) that get worse

How can I protect my child from the flu?

A flu vaccine is the best way to protect against the flu. Because the flu virus changes year to year, annual vaccination against the flu is recommended. The CDC recommends that all children from the ages of 6 months up to their 19th birthday receive a flu vaccine every fall or winter (children receiving a vaccine for the first time require two doses). You also can protect your child by receiving a flu vaccine yourself.

What can I do to prevent the spread of germs?

The main way that the flu spreads is in respiratory droplets from coughing and sneezing. This can happen when droplets from a cough or sneeze of an infected person are propelled through the air and infect someone nearby. Though much less frequent, the flu may also spread through indirect contact with contaminated hands and articles soiled with nose and throat secretions.

To prevent the spread of germs:

- Wash hands often with soap and water.
- Cover mouth/nose during coughs and sneezes. If you don't have a tissue, cough or sneeze into your upper sleeve, not your hands.
- Limit contact with people who show signs of illness.
- Keep hands away from the face. Germs are often spread when a person touches something that is contaminated with germs and then touches his or her eyes, nose, or mouth.

When should my child stay home from child care?

A person may be contagious and able to spread the virus from 1 day before showing symptoms to up to 5 days after getting sick. The time frame could be longer in children and in people who don't fight disease well (people with weakened immune systems). When sick, your child should stay at home to rest and to avoid giving the flu to other children and should not return to child care or other group settings until his or her temperature has been normal and has been sign and symptom free for a period of 24 hours.

During the 2009 legislative session, a new law was passed that requires child care facilities, family day care homes and large family child care homes provide parents with information detailing the causes, symptoms, and transmission of the influenza virus (the flu) every year during August and September.

For additional helpful information about the dangers of the flu and how to protect your child, visit: www.cdc.gov/flu/ or www.immunizeflorida.org/

A change in daily routine,
lack of sleep, stress,
fatigue, cell phone use, and
simple distractions are some
things parents experience and
can be contributing factors as
to why children have been left
unknowingly in vehicles...

consultation with the Department of Health.

WHEN LIFE HAPPENS... DON'T BE A **DISTRACTED** **ADULT**

Distraction Prevention Tips:

- **Never** leave your child alone in a car and **call 911** if you see any child locked in a car!
- **Make a habit** of checking the front and back seat of the car before you walk away.
- **Be especially mindful** during hectic or busy times, schedule or route changes, and periods of emotional stress or chaos.
- **Create reminders** by putting something in the back seat that you will need at work, school or home such as a briefcase, purse, cell phone or your left shoe.
- **Keep a stuffed animal** in the baby's car seat and place it on the front seat as a reminder when the baby is in the back seat.
- **Set a calendar reminder** on your electronic device to make sure you dropped your child off at child care.
- **Make it a routine** to always notify your child's child care provider in advance if your child is going to be late or absent; ask them to contact you if your child hasn't arrived as scheduled.

During the 2018 legislative session, a new law was passed that requires child care facilities, family day care homes and large family child care homes to provide parents, during the months of April and September each year, with information regarding the potential for distracted adults to fail to drop off a child at the facility/home and instead leave them in the adult's vehicle upon arrival at the adult's destination.

Facts About Heatstroke:

It only takes a car **10 minutes** to heat up 20 degrees and become deadly.

Even with a window cracked, the **temperature inside a vehicle** can cause heatstroke.

The body temperature of a child increases **3 to 5 times faster** than an adult's body.

Rilya Wilson Act

Pursuant to s. 39.604, Florida Statutes, a child from birth to the age of school entry, who is under court-ordered protective supervision or in out-of-home care and is enrolled in an early education or child care program must attend the program 5 days a week unless the court grants an exemption. A child enrolled in an early education or child care program who meets the requirements of this act may not be withdrawn from the program without prior written approval of the Department or community-based care lead agency. If a child covered by this act is absent, the program shall report any unexcused absence or seven excused absences to the Department or the community-based care lead agency by the end of the business day following the unexcused absence or seventh consecutive excused absence.

Educational stability and transition are key components of this act to minimize disruptions, secure attachments and maintain stable relationships with supportive caregivers of children from birth to school age. Successful partnerships are imperative to ensure that these attachments are not disrupted due to placement in out-of-home care or subsequent changes in out-of-home placement. A child must be allowed to remain in the child care or early education setting that he/she attended before entry into out-of-home care, unless the program is not in the best interest of the child. If a child from birth to school-age leaves a child care or early education program, a transition plan needs to be developed that involves cooperation and sharing of information among all persons involved, respects the child's developmental stage and associated psychological needs, and allows for a gradual transition from one setting to another.

This law provides priority for child care services for specified children who are at risk of abuse, neglect, or abandonment. *These children are also known as Protective Services children.*

Rilya Wilson Act Requirements:

- ✓ Protective services children **MUST** be enrolled to participate 5 days per week.
- ✓ Protective services children **MAY NOT** be withdrawn without prior written approval from the Department of Children and Families (DCF) or Community Based Care (CBC).
- ✓ If a Protective Services child has 7 consecutive excused or any unexcused absence, the child care provider **MUST** notify the appropriate community based care staff.
- ✓ The Department and child care providers **MUST** follow local protocols set up by the CBC to ensure continuity.
- ✓ If it is not in the best interest of the child to remain at the child care or early education program, the caregiver **MUST** work with the Case Manager, Guardian Ad Litem, child care and educational staff, and educational surrogate, if one has been appointed, to determine the best setting for the child.

Know Your Child Care Facility

MyFLFamilies.com/ChildCare

This brochure was created by the Florida Department of Children and Families,
Office of Child Care Regulation and Background Screening pursuant to s. 402.3125(5), F.S.

GENERAL REQUIREMENTS

Every licensed child care facility must meet the minimum state child care licensing standards pursuant to s. 402.305, F.S., and chapter 65C-22, F.A.C., which include, but are not limited to, the following:

- ✓ Valid license posted for parents to see.
- ✓ All staff appropriately screened.
- ✓ Maintain appropriate transportation vehicles (if transportation is provided).
- ✓ Provide parents with written disciplinary practices used by the facility.
- ✓ Provide access to the facility during normal hours of operation.
- ✓ Maintain minimum staff-to-child ratios:

Age of Child	Child:Teacher Ratio
Infant	4:1
1 year old	6:1
2 year old	11:1
3 year old	15:1
4 year old	20:1
5 year old	25:1

Health Related Requirements

- ✓ Emergency procedures that include:
 - Posting Florida Abuse Hotline number along with other emergency numbers.
 - Staff trained in first aid and Infant/Child CPR on the premises at all times.
 - Fully stocked first aid kit.
 - A working fire extinguisher and documented monthly fire drills with children and staff.
- ✓ Medication and hazardous materials are inaccessible and out of children's reach.

Training Requirements

- ✓ 40-hour introductory child care training.
- ✓ 10-hour in-service training annually.
- ✓ 0.5 continuing education unit of approved training or 5 clock hours of training in early literacy and language development.
- ✓ Director Credential for all facility directors.

Food and Nutrition

- ✓ Post a meal and snack menu that provides daily nutritional needs of the children (if meals are provided).

Record Keeping

- ✓ Maintain accurate records that include:
 - Children's health exam/immunization record.
 - Medication records.
 - Enrollment information.
 - Personnel records.
 - Daily attendance.
 - Accidents and incidents.
 - Parental permission for field trips and administration of medications.

Physical Environment

- ✓ Maintain sufficient usable indoor floor space for playing, working, and napping.
- ✓ Provide space that is clean and free of litter and other hazards.
- ✓ Maintain sufficient lighting and inside temperatures.
- ✓ Equip with age and developmentally appropriate toys.
- ✓ Provide appropriate bathroom facilities and other furnishings.
- ✓ Provide isolation area for children who become ill.
- ✓ Practice proper hand washing, toileting, and diapering activities.

QUALITY CHILD CARE

Quality child care offers healthy, social, and educational experiences under qualified supervision in a safe, nurturing, and stimulating environment. Children in these settings participate in daily, age-appropriate activities that help develop essential skills, build independence and instill self-respect.

When evaluating the quality of a child care setting, the following indicators should be considered:

Quality Activities

- ✓ Are children initiated and teacher facilitated.
- ✓ Include social interchanges with all children.
- ✓ Are expressive including play, painting, drawing, storytelling, music, dancing, and other varied activities.
- ✓ Include exercise and coordination development.
- ✓ Include free play and organized activities.
- ✓ Include opportunities for all children to read, be creative, explore, and problem-solve.

Quality Caregivers

- ✓ Are friendly and eager to care for children.
- ✓ Accept family cultural and ethnic differences.
- ✓ Are warm, understanding, encouraging, and responsive to each child's individual needs.
- ✓ Use a pleasant tone of voice and frequently hold, cuddle, and talk to the children.
- ✓ Help children manage their behavior in a positive, constructive, and non-threatening manner.
- ✓ Allow children to play alone or in small groups.
- ✓ Are attentive to and interact with the children.
- ✓ Provide stimulating, interesting, and educational activities.
- ✓ Demonstrate knowledge of social and emotional needs and developmental tasks for all children.
- ✓ Communicate with parents.

Quality Environments

- ✓ Are clean, safe, inviting, comfortable, and child-friendly.
- ✓ Provide easy access to age-appropriate toys.
- ✓ Display children's activities and creations.
- ✓ Provide a safe and secure environment that fosters the growing independence of all children.

PARENT'S ROLE

A parent's role in quality child care is vital.

- ✓ Inquire about the qualifications and experience of child care staff, as well as staff turnover.
- ✓ Know the facility's policies and procedures.
- ✓ Communicate directly with caregivers.
- ✓ Visit and observe the facility.
- ✓ Participate in special activities, meetings, and conferences.
- ✓ Talk to your child about their daily experiences in child care.
- ✓ Arrange alternate care for their child when they are sick.
- ✓ Familiarize yourself with the child care standards used to license the child care facility.

This child care facility is licensed according to the minimum licensure standards included in section 402.305, Florida Statutes (F.S.), and Chapter 65C-22, Florida Administrative Code (F.A.C.).

License Number: _____

License Issued on: _____

License Expires on: _____
